

CHEMICAL SAFETY

Course Programme

Aim of the Course: To give employees a basic understanding of the current COSHH / HAZMAT Legislation and guidance and methods of assessing risks in the workplace.

Objectives:

- To raise awareness of the acute and chronic injuries caused by exposure to chemicals.
- To enable employees to carry out suitable and sufficient risk assessments.
- To provide the key skills and training necessary to work with chemicals safely.

Methods used:

- PowerPoint presentations, videos and small group work.

Course Content:

- Introduction to accident causation
- Managing Chemical Safety ~ Where do employers stand in law
- Introduction to the COSHH Regulations
- The 8 Steps to Compliance
- COSHH / HAZMAT Assessments
- Safety Data Sheets
- Chemical Hazards, Health Effects
- Health Surveillance
- Emergency Procedures
- Information, Instruction & Training
- End of course review

A **Certificate of Competence** is awarded to all delegates who attend the course. This Certificate is valid for 3 years.
